Burglars hit new Highgrove Library.....again!!

For the 2nd time the new library in Highgrove has been burglarized by thieves who have stolen the large electrical equipment that controls all of the electrical systems in the building. Thieves broke the lock on the outside electrical box about 30 feet from the building and turned off the power to the building then proceeded to remove \$25,000 worth of heavy electrical components from the electrical room. The thieves were more interested in the heavy components than just the copper wire. The equipment was replaced by the builder and the power restored but it happened again. The 2nd time county funds were used

to replace the equipment and more security systems were added. After the 2nd time there was a 24/7 security guard hired until the power could once again be restored. The library re-opened again on Wed. June 23, 2011.

The Riverside County Sheriff Dept. needs your help in identifying the suspects who were caught by the video surveillance cameras. Their vehicle was described as an F-series white Ford pick-up with an extended cab and tan or gray rocker panels with chrome rims.

If you have any idea who these people are, please contact Investigator Birmingham at (951) 955 9952.

See Below

Truck hits pole-railroad ties catch fire!

On June 21, 2011 Highgrove station 19 (left) and Rubidoux station 38 (right) as well as units from San Bernardino County and Moreno Valley, responded to the fire at Center St. and Commercial Ave. by the RR tracks.

It all started on the afternoon of June 21, 2011 when this large truck hit the power pole on Commercial Ave, and the falling wires ignited railroad ties at corner of Commercial Ave, and Center St. in Highgrove.

 JURUPA VALLEY STATION
 7477 MISSION BLVD, RIVERSIDE, CA 92509
INFORMATION NEEDED
 Case Number E111230062/ Burglary May 24, 2011

On May 1, 2011, two unknown suspects stole \$25,000 dollars in electrical equipment from the Riverside County Library located at 530 Center Street in Highgrove. The suspects disabled power to the library, thus deactivating the alarm and the video surveillance system. The suspects broke into the electrical room and removed the main switchboard and gear. The two pictured males are suspects in this burglary. The vehicle is possibly a white Ford F-series truck, extra cab, with a tan or gray rocker panel and chrome rims.

If you have any information regarding this burglary, please contact Investigator Birmingham at the Jurupa Valley Station at 951-955-0952.

DO NOT SHOOT GUNS INTO THE AIR

Amazingly, many people harbor the idea that bullets fired straight up into the air are harmless. Some people even believe that the bullets dissolve in the air or float back to earth. Nothing could be farther from the truth. In fact, the bullets will fall back to earth with enough velocity to penetrate the roofs of homes and vehicles and not only is it extremely dangerous to shoot guns in our residential areas, but it is in violation of State Laws. IF YOU SHOOT FIREARMS IN A RESIDENTIAL AREA IN RIVERSIDE COUNTY YOU WILL BE ARRESTED FOR A FELONY violation of the California Penal Code. Your Riverside County Sheriff's Department is urging all concerned citizens and community leaders to join with us in persuading all the members of our county to not celebrate any holiday or festive occasion by endangering themselves, their loved ones, and neighbors by indiscriminately firing guns.

To report violators please call the Sheriff at: (951) 776-1099 Ext. 5.

HIGHGROVE HAPPENINGS

Topless house

This is one way to cut down on a house payment! This house on Iowa Ave. near the liquor store was demolished on June 1, 2011.

Don't fence me in..... or out!

Across the street from the house that was demolished is another item of interest that has drawn criticism of the new tenant who now occupies the former Hughes Appliance building on the east side of Iowa Ave. that was improved by the Riverside County Economic development Agency under the façade improvement program. The new tenant has installed a chain link fence between his business and the business next door that extends into the asphalt parking area. The post has been bent by vehicles running into the fence because the fence makes it difficult to park at the neighboring business. The location of this new chain link fence has been brought to the attention of Riverside County Code Enforcement and according to Tim Wheeler from Riverside County Land Use: "Mr. Oglesby needs to remove/demo the fencing down

to what is approved by PP23510 or apply for a substantial conformance to permit the addition of the fence. As of today's date (May 17, 2011) he has not applied for a substantial conformance to permit the addition of the fence. Code enforcement is now the only county Dept. he needs to comply w/in regards to resolving his citation".

Another controversial fence in Hemet, that was installed by the Riverside County Transportation Commission, created parking problems for Hemet's Saturday morning Farmers Market according to an article in the Press-Enterprise on June 24, 2011. The fence blocks off an area of abandoned track owned by RCTC but has been used for parking for the farmers market.

I guess fences can be a good thing or a bad thing depending on what side of the fence you are on!

New Chevron Station almost ready.

The gasoline pumps were installed on June 20, 2011, the day after this photo was taken.

A new configuration of the intersection has been completed between the east side of the Center St. overpass and Iowa ave. in conjunction with the new Chevron Station. The new station is on the s/w corner of Center St. and Iowa Avenue. The station should be open by mid July.

HIGHGROVE HAPPENINGS

New Stater Bros. to open in Aug. 2011

East La Cadena closed until July 15, 2011

We attended the Grand Terrace Chamber of Commerce meeting at Pinnacle Peaks and Jack Brown, CEO of Stater Bros. was the guest speaker. The new Stater Bros. market will be the most expensive and most complete market built by Staters and many people in the area are looking forward to the grand opening. The new building has received awards for efficiency and uses high tech to insure efficient use of solar energy, recycling will also include a Chase Bank located inside the store. This year will be the 75th anniversary of Stater Bros. Markets.

Jack Brown

The frontage road on the east side of the I-215 will be closed to through traffic between Villa St. and Palmyrita Ave. until July 15, 2011. The elevation of the frontage road on the east side of the freeway has been raised just south of the Eagles Aerie. Crews are presently working on building a retaining wall between the freeway and East La Cadena Drive. This road work and retaining wall are being done prior to the installation of a new sewer line between Villa St. and Palmyrita Avenue. You can also look for further delays after July 15th because it will take some time to install the new sewer line after this preliminary road work is completed. Please drive carefully in any area of a construction zone.

HIGHGROVE HAPPENINGS

DEVILS DEN

by Dennis Wilds

David and the Zundappes

David had a favorite mental pastime and that was to imagine standing between two mirrors and wonder at the never ending reflections of himself receding into infinity. Which David was the real one anyway? On the other hand, was anything real? Was tonight real, and if so, then why had he fallen backwards into the red dirt outside the Furrmen compound holding the shoe of a grown man known as "The Baby"? The sun had set an hour earlier and mixed with the smells of cooking beans, something like burning rags and just a hint of skunk odor, David could smell the scent of the surrounding pine trees of Buzzard Creek, Oklahoma. With family two thousand miles away in Squires Camp, California, my older brother had come home to get away from a little trouble back in Stratford where some bicycles had come up missing. It was a mild Indian Summer evening and David missed his family. He had been longing for two years to come back to the family farm but not under these circumstances. Home, he now understood was where family was, and his family was fragmented. He was alone and how he came to be holding the Baby's brogan shoe this night will require some explaining going back to times even before David was born, or for that matter before Baby, Myrtle In The Bushes, Eldridge, Billy, Candido and the rest of the Furrmen ever founded the Zundappe compound in Buzzard Creek. For now, these real people were just shadows on the tent wall illuminated by the

kerosene lamps. In the Midwest, where whole towns emptied and populations undulated with the seasonal crops, a certain segment of this human flotsam settled in the backwoods of Mc Curtain County Oklahoma and David was temporarily going to be a part of important human history whether he wanted it or not. He had been adopted and accepted by the Zundappers of Buzzard Creek and it wasn't all that bad to tell you the truth.

Having previously alluded to the Zundappers, I guess now is a good time to explain how an ancient European religious order found its way to twentieth century Oklahoma. The credit goes to a Swiss Zundappe missionary named Roy Eugene Fermin, maybe the hardest working Zundapper of all time. Roy believed in work and all the good it could bring you and it is ironic that in time his sect came to embrace the exact opposite of this philosophy. By the time Roy, or Brother Fermin, as he called himself, had worked his way westward across the states he was tired and ready to settle down and Buzzard Creek seemed to have all the makings of a new world. There was the year round creek, woods for building, and a never ending supply of WWI military surplus tents to be had. The local Okies were so distracted by the chronically depressed economy that Brother Fermin's arrival attracted little attention. The local sheriff, Walter Irons declared Roy harmless after one cursory visit and Buzzard Creek's population grew by one. For more on Brother Roy and his Zundappers go to www.brasspearl.com and click on the "Devil's Den Story" tab.

Public Hearing July 12, 2011

There will be a public hearing on **Tuesday July 12, 2011 at 1:30 pm** on the ground floor of the Riverside County Administration Center at 4080 Lemon St. in Riverside to consider the application submitted by Workforce Homebuilders LLC on **General plan Amendment No. 1105** which proposes to change the land use designation from Medium Density Residential (MDR) to High Density Residential (HDR) on 6.71 acres of the site and the Public Facilities (PF) on the remaining 0.72 acres; **Change of zone No. 7752**, which proposes to change the zone from One Family Dwelling (R-1) to General residential (R-3) for a 6.71 acre portion of the existing parcel, or

such other zones as the Board may find appropriate; and **Plot Plan No. 24778 (FTA 2010-10)**, which proposes an 89-unit low income housing apartment complex including a tot-lot, parking, trash enclosures, and pedestrian pathways on a 6.71 acre site ("the project"). The project is located northerly of Spring St. on the southeast corner of Center Street and Michigan Avenue in the University Zoning District-Highgrove Area Plan, Fifth Supervisorial District. For more information please contact Matt Straite, project planner at (951) 955 8631 or e-mail him at mstraite@rctlma.org or send correspondence to: Clerk of the Board, 4080 Lemon St., 1st floor, Post Office Box 1147, Riverside, Ca. 92502

Letter to the Editor:

Ever since my family and I moved to Highgrove back when I was just seven years old, we have been amazed about the wonderful family environment it provides. My brother and I have wonderful memories of spying on our dancing neighbors across the street and playfully tossing lemons into their yard. We have memories of riding my friend's pony, parading through the streets, and advertising for our lemonade stands. We may have run out of lemonade before the first customer came, but our stomachs were content, and the memories were ones that will last for a lifetime. Winter bake sales, Spring bike rides, and Summer pool parties are all what contribute to the best childhood anyone could ever ask for. These wonderful memories are mostly due to the amazing Highgrove neighborhood that we belong to.

Riverside County is planning on doing what they call a "project" in our little town. This so-called "project" is a plan to put 89 low-income apartments behind the new library -- and right next to Highgrove Elementary. It also re-zones our area from low and medium-density residential to high-density residential. In lay-man's terms, this "project" opens the door for other "projects" of the same kind -- ones that stuff as many living spaces as possible in as small amount of land as possible. I'm sure their intention is to benefit the Highgrove community, but it is my contention (and I believe the contention of Highgrove residents as a whole) that it would not benefit us in any way -- it would actually serve as a huge detriment to our wonderful little neighborhood. There are many reasons for this.

But all this is about to change.

The first is that of crime. Low-income apartments have been

HIGHGROVE HAPPENINGS

Hemet Ryan Air show well attended

There was a good crowd at Ryan Field in Hemet for the air show. There were a lot of airplanes on display and the cloud cover lifted just in time to see the stunt pilots performing trick maneuvers in their flying machines.

My daughter Beverly and grandson Kipp are shown in front of a WWII P-38 at the Air Show in Hemet on June 11, 2011. They live in Hemet and I met them at Ryan Field and we had a great time! Unfortunately, Rob had to work and was unable to attend.

Rods and Rails Extravaganza

After the Hemet Air Show I went to the "Rods and Rails" in Perris which is a great event with cars and trains and lots of things to see and do. I stayed until 5:00 pm and enjoyed listening to the live music. I thought I may be too late after being "Caught in the Middle" and blocked in at the parking lot of the Hemet Air Show. (See photo above right)

Parked but "Caught in the middle!"

No one was assisting vehicles how to park in the field south of the airport. When I returned to my car I was boxed in and couldn't get out. Someone pulled right in behind 2 rows of cars and started a 3rd line of cars that resulted in a whole row of cars being caught in the middle with no way out. The Hemet police were there and tried to get people to move their cars but the culprits were at the air show across the street. An announcement was made and after about 30 minutes one truck moved so I could get out. Better parking supervision is needed because some inconsiderate people cannot be trusted to use common sense to leave room for other vehicles to get in and out whenever they want to leave.

This Hollywood celebrity was having a good time walking around with its owner looking at all of the airplanes. I wanted to get an autograph while she rested, but she seemed too hot (or too cool), so I didn't ask!

The day after the Hemet Air Show and Rods to Rails at Perris, I went to the Old Farts Racing Team reunion at Fairmont Park where there were old cars lined up clear around Lake Evans. Since Ardie was in Iowa at her family reunion I took the week-end off from working around the house.

Beautiful 1.43 ac custom horse ranch home. Hard to find single story, Lake Mathews Prestigious Area. Corner lot for RV or horse trailer access. Carpet is approx 3yrs, and dishwasher & roof, tile in entry. Formal living room, spacious formal dining room, family room with floor to ceiling fireplace. Large country kitchen with lots of room for additional dining room table. Big laundry room. Covered patio, fruit trees, fenced, landscaped, sprinkler system. Shows extremely spotless. Easy access to Corona 15 fwy and Riverside 91.

HIGHGROVE HAPPENINGS

There's No Place Like Home!

There's nothing like "Home Sweet Home" as the saying goes. I just returned from a four week trip to Iowa to see my children and grand children. I left on May 19th and flew into Sioux Falls, SD. My daughter and husband both work in Sioux Falls and they live in Lennox, SD. My son-in-law picked me up at the airport and when my daughter got off work at VetPharm she drove me to Iowa to my son's farm. Both my sons live on small acreages a mile out of Orange City (my home town) and are right across the road from each other. This makes it so handy to be able to walk back and forth to see the two families.

Upon arriving at Orange City that Thursday it was the 1st of 3 days Tulip Festival celebration in the small Dutch community where I grew up. The Orange City Tulip Festival is an entertaining celebration of the best of small-town America where over 100,000 visit this community and its rich Dutch heritage. The festivities includes music and dancing by hundreds of children and adults in intricate authentic costumes with wooden shoes, two daily parades featuring top area marching bands, nightly musical theatre, a carnival midway, fun ethnic food treats, plus thousands of tulips and a dozen reproduction windmills throughout a charming village.

The following week my younger grandson Brody graduated from Unity Christian High School. That was the main purpose of my trip to Iowa but because my extended family had a large family reunion

planned for June 18th, I decided to make an extended trip this year. We were there to celebrate the anniversary of our grandparents and great grandparents coming from Holland to America. Yes they came over the legal way through Ellis Island.

I had a great time spending quality time with my kids and especially my grand kids. I only get to see them once a year so they seem grow up over night. School was still in session when I got there but they only had part of the next week and then they were dismissed for summer vacation.

Orange City has a supper summer rec. program and the kids have a lot of activities to choose from. The local swimming pool opened the first week the kids were out of school. Mind you to me the weather was not warm enough for swimming. It was about 65-70 degrees out. To them it was summer weather after the cold and snow they lived through this past winter.

"Winter" now that's one of the main reasons I do not live back there anymore. I still cannot forget the frigid cold and snow. Because of all the snow this past year there is severe flooding on the Missouri River. My home town is about 45 miles away so they are not in any danger of flooding but according to the Corp of Engineering the flood waters will not subside until maybe September. So many of us hear on the news of the disasters like the tornados and earthquakes and tsunamis and I

truly feel sorry for them but there are millions of people that are being affected by this flood all the way from Fargo ND down to the south.

My days were spent mostly with my granddaughters Paige who is 13, Cassidy who is 11 and Kia who turned 8 while I was there. I had use of a choice of my daughter-in-laws vehicles when I needed and I really appreciated having wheels to get me around.

One day when I had Paige and Cassidy with me they asked me if I could stay the whole summer (now that made me feel so good but I knew what "Barney's" answer would be so we called him and he told them they would have to pay overtime if I were to stay all summer).

On June 16th Cassidy and I went to Sioux Falls, SD to pick up my sister Geri Barnett and her daughter Lisa Brazfield from the airport. They flew in for our DeBeer fam-

ily reunion. They were only there for a few days so I planned a mini class reunion on Friday for Geri at the Hatchery (the name of the restaurant that my son and daughter-in-law own). There were about 9 classmates there along with our only living uncle and aunt. That evening there was a large gathering of extended relatives of Lisa that met at the Pizza Ranch. Some we had never met or hadn't seen for years. We all had a great time and told stories and laughed so hard.

Saturday was the DeBeer reunion and there were well over 100 people attending.

I want to thank all my family, but especially my daughter-in-laws for letting me stay with them for a whole month. It was so good to have that much time but it sure was time I came home. I guess I'm like Dorothy of the Wizard of Oz "There's no place like home" "There's no place like home"!

L-R: Back row, Shelly & Kyle my son and daughter-in-law (owners of the Hatchery), Cassidy Wassenaar my granddaughter, Kendall & Lori my son and daughter-in-law (who put up with me for 4 weeks). Front row, Paige my granddaughter, Ardie (I told the grand kids that I was the matriarch), my sister Geri Barnett from Grand Terrace and her daughter Lisa Brazfield from Mentone. More pictures of my trip on page 10 & 11.

HIGHGROVE HAPPENINGS

Sheriff's Dept. seeking help!

On Tuesday, June 14, 2011, at about 8:45 PM deputies from the Riverside County Sheriff's Department, Jurupa Valley Station, responded to the Circle K Market, located in the 8000 block of Mission Avenue, Glen Avon regarding a robbery which had just occurred. Deputies immediately responded to the location but the suspect had already fled the scene.

The investigation revealed that a male entered the store, brandished a handgun and demanded money from the clerk who was working the cash register. The clerk complied with the suspects demands and gave him an undisclosed amount of cash. The suspect was described as a Hispanic male adult, between the ages of eighteen and twenty-five years, with short black hair, and what ap-

pears to be a small scar on the back of his head. He was about five feet, five inches tall and weighed about one hundred and forty pounds.

Later that same night a suspect matching the same description robbed a Valero Gas Station in the 300 block of Stephens at 10:00 PM, in the community of Highgrove, and a Valero Gas Station at 11:45 PM, in the 13000 block of Fern in the community of Cabazon.

Please see the attached photograph of the possible suspect. The Sheriff's Department is requesting the public's assistance in identifying this male and encouraging anyone with information regarding any of the three robberies to please contact Investigator Brett Johnson of the Jurupa Sheriffs Investigations Bureau at 951-955-2656.

Letter to the Editor

(cont. from P. 6)

shown to increase crime rates in neighborhoods. Do we really want an increase in crime right next to our own Elementary School? I sure don't. The whole reason why my parents moved here in the first place was to protect us from the souring neighborhood we were living in. I do not want to have to move again.

The second reason is property value. It is proven that an influx of low-income homes in a community lowers the property value of the other homes there. With the economy the way it is, I'm sure none of us would appreciate that.

For the other reasons, look to the kids of Highgrove themselves. One of my friends, Chloe, heard about "the project", and succinctly stated her objections by saying, "Highgrove is NOT high buildings." She went on to say, "If they keep trying to build things everywhere, my friends and I wont even have enough room to ride our hors-

es!" I would have to agree with both statements. Everything that Highgrove stands for is at stake here! We currently have room to run and play, ride our horses, and not worry about cars racing down the street. With an influx of people moving into our little area, more and more cars will be driving up and down our streets all day long. We will no longer be known as the small country town of Highgrove.

If you agree with any of the reasons I just mentioned, or can think of any more objections to this "project", I encourage you to take action. Tuesday, July 12th at 1:30 P.M. on the 1st Floor Board Chambers, County Administrative Center, 4080 Lemon Street, Riverside, there will be a meeting discussing this "project." You don't have to be ready to speak unless you want to -- your presence will be voice enough! Let's stand up as a community and keep our little neighborhood the way it is!

- Sabrina Cruz age 15 and the kids of Highgrove.

HIGHGROVE HAPPENINGS

Orange City, Iowa

Kelli Jensen, Kyle Wassenaar, Kia Wassenaar and Brody Wassenaar at "The Hatchery". Two of Ardie's Kids and 2 of the 7 grand kids.

"The Hatchery" was purchased by my son and daughter-in-law in February. "The Hatchery" was originally built as a chicken hatchery in the early 1900. It was known as the Sunrise Hatchery until the mid 1950's. Special care was taken throughout the renovation to preserve as much of the historical nature of the building as possible. The brick wall, ceiling and floor were brought back to their original state.

On the left is my niece Lisa Brazfield from Mentone, CA. in the downtown park at Orange City, Iowa.

Brody & Kia cruising on Lake Okoboji in Iowa for Kia's 8th birthday!

HIGHGROVE HAPPENINGS

DeBeer Family Reunion

This is the majority of relatives that were available for a group picture at our family reunion in Orange City, Iowa. There were some late comers that didn't make it in time for the picture. I can not even begin to name all of the people because there are children and grand children and even great grand children of my cousins that I had never met. Do you have any relatives with roots in Iowa? Do you see anyone you know?

Mini class reunion of class mates of my sister Orange City, Iowa and some friends at "The Hatchery", which is a restaurant owned by my son and his wife. L-R Back row: Myrna, Margaret, Geri, Marcine, Shar, Mardi, Ardie, and Lisa, (Geri's daughter). L-R seated: Bev, Lori, Pat, and Esther.

The Wassenaar family got together at the Pizza Ranch in Orange City. These are cousins of my sister and I and Geri's daughter Lisa. Some of these relatives we hadn't seen for years. We had such a good time rehashing old times. We heard stories we had never heard before. I will say we were a loud bunch and I'm glad they had us in a private party room.

HIGHGROVE HAPPENINGS

VIRGINIA'S VIEWPOINT

by Virginia Harford

GRAND TERRACE ABOUT TO BE OUT OF DEBT

Not too many weeks ago, Grand Terrace was in danger of being disbanded as an incorporated city. So the council put its collective heads together and made cuts and reductions and put the city not in the black exactly but certainly closer than it was.

The current budget is workable and the cuts are not too painful. People have been laid off and services have been cut but we are a very small community and can live quite well with the budget squeezing.

G.T. HIGH SCHOOL

Grand Terrace High is coming along and I am told by the superintendent's office that the hope is that it will open in early 2012. I will be interested in knowing where the thousands of students will come from. Additionally, where will the teachers come from?

It appears to be a school that will accommodate more students than was originally believed. There are plans set not too far in the future to also build the swimming pool and bleachers that were eliminated when the construction was begun a couple of years ago.

I am not too hopeful that this school will be the ideal some seem to think it will be.

STATER BROS. MARKET

This is a big building, much larger than it seemed to be when first begun. I am looking forward to the opening which Jack Brown, CEO and president of Stater Bros. Markets says will happen this year. It really is amazing how construction of such a business can come up as fast as this one has. It will be interesting to see if the location will bring people off the freeway and from other cities nearby. It will also be neat to see our regular checkers and management personnel transferred to the new site.

THE FOURTH OF JULY

My late mother was born on July 5 and would be 101 had she lived but alas she died in 1993. I miss her still even after all these years. My dad always called her his Firecracker and she was that indeed, a sprightly, spirited, opinionated woman that had a fiery temper and would take on anyone in an argument. Maybe that is where I got my love of arguing.

She lived in Oakland and I have lived in GT for almost 50 years. Mom would call me up and say, "Now, Virginia, I am not going to talk all day!" and then she would proceed to talk an hour or two. Denis Kidd and Jack Ober-schmidt and I were talking today

cont. pg 13

Old library building gone forever!

The old Highgrove library has been torn down in spite of efforts to save the building for purposes that would benefit the community. Suggestions such as a Sheriff Sub-station, museum, or classroom for the school have been rejected. The Riverside Unified School District said it could not be used by the school and the next thing we noticed it was torn down. So for a while Highgrove went from 2 libraries to none but now the new library re-opened on June 23, 2011 and is located at 530 W. Center St. in Highgrove. The hours are: Sun. & Mon.: Closed, Tues., Wed., and Thurs.: 10 am to 6 pm, Fri.: Noon to 6 pm, Sat. 10 am to 3 pm

Grand Terrace Community Day

The Kids Zone was a very busy place all day long and everyone had a very good time.

Grand Terrace celebrated in a big way on June 25, 2011 at Rollins Park on DeBerry St. in Grand Terrace. There was a huge tent, 100 X 40 ft. for the kids zone and there were many things for the children to do such as tables to make a fan, pine cone bird feeder, pirate hat, tongue depressor picture frame, rockin' bracelets, a bubbly bubbles zone, Lego's, recycle art, and other fun things to do. A passport was given to those who came to the kid's zone and the different stations put stickers on their passports. When their passports were filled they could take them to the exit where they were given a new bicycle helmet. There were a lot of vendors with their EZ ups to use for shade and on the south west corner of the park was a stage where singers and dancers performed. Nearby there was a tug of war and a balloon toss contest. There were a lot of things to do for all age groups and it was well attended by a lot of people from the area.

HIGHGROVE HAPPENINGS

FINANCIAL FOCUS

Know Your Investment Risks — and How to Respond

When you invest, you take some risks. While you can't totally avoid these risks, you can take steps to help reduce their impact and increase your comfort level. And the more comfortable you are with your investments, the easier it will be to follow a long-term strategy that can help you meet your goals.

Let's look at the most common types of risk related to investing, along with some suggestions on helping to reduce these risks:

Losing principal — This type of risk is most closely associated with investing. For example, when you purchase a stock, you know that its value could go up or down. If it drops below your purchase price, and you then sell your shares, you will lose some of your principal.

Your response — You can't eliminate the risk of losing principal, but by owning a mix of stocks, bonds, government securities and other types of investments, you can help reduce the impact of volatility on your portfolio. Keep in mind, though, that diversification, by itself, can't guarantee a profit or protect against loss.

Losing value when interest rates change — This type of risk primarily affects fixed-income investments, such as bonds. If you

purchase a bond that pays, say, a 4% interest rate, and the market rate goes up to 5%, then the value of your bond will drop because no one will be willing to pay you the full price for it when newer, higher-yielding bonds are available.

Your response — You can combat, or even ignore, interest rate risk by holding your bonds until they mature. By doing so, you'll get your full principal back, provided the issuer doesn't default, and you'll continue to receive regular interest payments unless the bonds are "called," or repurchased by the issuer. (You can help protect against this by purchasing bonds that have some degree of "call protection" and by owning bonds with different maturities.)

Losing purchasing power — This risk largely applies to fixed-rate investments such as certificates of deposit (CDs). To illustrate: If you purchase a CD that pays 2%, and the inflation rate is 3%, you are actually losing purchasing power.

Your response — Despite their vulnerability to inflation, CDs can offer you some valuable benefits, such as preservation of principal. Yet if you are concerned about fighting inflation, you may want to look for investments than have the po-

tential to offer rising income, such as dividend-paying stocks. In fact, you can find stocks that have increased their dividends for many consecutive years. (Be aware, though, that companies can reduce or eliminate dividends at any time. Also, an investment in stocks fluctuates, and you could lose your principal.)

Apart from these individual techniques to reduce investment-related risk, you should also save early and save often — because the more money you accumulate, the greater your ability to follow a long-term strategy that reflects your personal risk toler-

ance. That's why it's a good idea to contribute as much as possible over the years to your IRA and 401(k) or other employer-sponsored retirement plan.

By understanding the different types of investment risk, and by acting to help lessen them, you can reduce much of the stress sometimes associated with investing — while you increase your prospects for achieving your objectives.

This article was written by Edward Jones for use by your local Edward Jones Financial Advisor.

Virginia's Viewpoint

(con. from pg 12)

at lunch about our mothers. I told them how much I still miss mine and her telephone calls and letters, even though it has been 18 years since she died. Jack and Denis's mothers lived to be 100 years and six months, both women Bessie Kidd and Helen Oberschmidt lived exactly 100 years and six months. They both agreed that they still miss them but Denis said that he was happy that his mother lived a long and fruitful life and that he did not feel as sad about her passing because she had such a wonderful long life and was healthy for most of it. Helen Oberschmidt was aware and alert for most of her 100 years and six months. Every year

in June the family would gather in Lake Tahoe at their cabin there and reminisce. Jack said they had a wonderful time this year and even though it was bitterly cold at times they enjoyed the get-together.

I wish you all a happy fourth of July with good health and good times. Try to remember what the day stands for. FINIS

Diana Zamora, age 10 was the winner of this month's word search puzzle. She is in the 5th grade and her teach this past year was Mrs. Kelley. Diana is the daughter of Alejandro and Doloras Zamora.

Congratulations Diana and have a wonderful summer. Good luck to the next winner.

Diana Zamora

Advertising rates

The "Highgrove Happenings" advertising rates are the lowest rates in town. If you have already trained your dog to bring in the paper (like the one on the right) you can be assured that he won't be lifting anything too heavy by bringing in our little newspaper. Some of the other larger newspapers are wasting just too many trees, especially in their Sunday edition. No one should ever ask their dog to lift something that heavy! Our little paper may not have much news in it, but we take pride in providing you with something free that you can put in the bottom of your birdcage! Give us a call (951) 683 4994 or check out our web site for the pricing and sizes of our ads or go to <http://www.highgrovehappenings.net> and click on the contact page.

Call us !

We have no reporters so we are asking for your help. You can be a reporter by just giving us a call or sending us an E-mail or a picture. Small town news is what we are all about and we want to encourage you to participate. We try to print positive things since there is so much bad news on TV and in other newspapers. Send us a story, take a picture or call us about something that is happening in Highgrove. (951) 683 4994

Please visit our Highgrove Happenings website:

www.highgrovehappenings.net

Keep in touch: Send us your e-mail addresses to help us keep you informed of activities and projects that effect our community. Send your address to:

Highgrove T-shirt prices reduced! (See P.3)

Notice: We have some Highgrove T-shirts in various sizes that have just been printed. They have the Highgrove logo on the front and a picture of a 1916 "Highgrove Brand" orange crate label showing Sugarloaf with an orange grove at it's base. It states: Grown and Packed in Highgrove by Sugarloaf Orange Growers Ass'n Highgrove. Call (951) 683 4994
